Olivia:

Good! Thanks. Yes, I will contact our contractor and try to commence beach rehab right away. Our intent is to duplicate what we did at the beach a year ago; no changes to the beach other than fixing washouts and, in this case, general clean-up.

I am unaware of any particular permitting necessary for us to proceed; but, if so, do let me know.

Again, thank you for this and all of the other work you put into our town,
George

Hi Mr. Wittmer,

I hope you are doing well. We got the soil results back and everything looks good. If you are still willing to work on the beach replenishment, I would be happy to assist you in any way you need me to in order to coordinate that.

Thank you!

Olivia Stewman, MPA
